

GET EQUIPPED WITH ARIPACK

BROOKLYN, NY, 2020 – Packaging & Equipment Provider, Aripack, announces their exclusive North American partnerships with Italy based Packaging Machinery Manufacturers Miele and Laferpack.

Miele specializes in the construction of Vertical Form Fill & Seal machines while Laferpack specializes in Horizontal Form Fill & Seal machines. Both Miele and Laferpack produce a wide range of customized, high-end, state-of-the-art machines for the food industry.

Aripack works directly with customers providing expertise in machine consultation, installation, training, and service to ensure the highest customer satisfaction. Offering direct sales, financing and a unique machine-packaging program, Aripack works with each customer to meet their specific needs.

“Our new normal brings new possibilities, and automation and innovation will be needed more than ever before. “Packaging Above & Beyond” says it all, and we think of ourselves as a one-stop-shop for your packaging and equipment needs” – Isak Bengiyat, Aripack CEO

“The Miele vertical bagger has helped our operation output and cost with its high speed and ease of use. Our technicians are impressed by its features and capabilities. The Aripack team made it simple by managing integration of secondary equipment and providing on-site support and training during commissioning. We recommend Aripack and Miele for your vertical bagger needs.” – Allen Benz, Snack Innovations
